Recycling Plan

Styrofoam cups will be replaced with paper cups. PROCESS: Aluminum will be separated and sent to the golf course. Whenever possible, recycled and environmentally safe products will be ordered. COLLECTION: Aluminum will be sent to the golf course and delivered to a local recycler. Approved June 11, 2001 Board of Commissioners

In order to reach our goal to recycle solid waste wherever possible throughout the park district, the following recycling plan is in effect.

Aluminum cans will be collected separately in regular garbage bags and recycled.

Products made of recycled materials will be used whenever possible, i.e., recycled paper in the hand towel dispensers, timbers constructed of recycled plastic used in playground construction, etc.

Waste fuels will be recycled.

All employees are asked to please cooperate in this effort.

Approved June 11, 2001
Board of Commissioners
