

The purpose of our classes is to create a positive, fun and healthy environment for skaters of all ages and abilities. We strive to inspire in participants a sense of personal accomplishment along with a life-long passion for skating, while challenging each student to reach their full potential. From three year olds to adults, our lessons provide you with the foundation for Figure Skating classes, Hockey or Recreational skating. Lessons are presented in a logical progression whereby a skater builds upon skills achieved in the preceding level. Some classes may need to be repeated to master all skills. Our curriculum works in conjunction with both the United States Figure Skating (USFS) Basic Skills Program and the International Ice Skating Institute (ISI) "WeSkate" program. (MH)

SUMMER SKATING EXHIBITION

Participants in our Summer Skating Session will learn a program to be performed in our summer exhibition on **Friday, August 9th**.

Participants learn a program during class that incorporates the skills being taught in their level. Additional practice time will be provided at the end of the session. There is no extra charge for the skater to perform; invite your family and friends to attend this FREE exhibition!

Skates-Which ones should they wear?

Proper equipment is the first step towards a positive skating experience. For beginners ages 3-5 leather starter skates/Figure Skates with a single blade made of steel not aluminum are much easier to learn in.

Why Figure Skates For Beginners? The advantage of learning in a pair of Figure Skates is that the blade is flat allowing greater stability while learning. The toe pick allows the skater to catch themselves should they begin to fall forward. When buying a pair of ice skates it's important to look for leather not vinyl. Leather helps support the ankles, vinyl does not.

Why not Hockey Skates for Beginners? Hockey skates for beginners are difficult to learn in. If you will notice, a hockey blade is "rocked" like a rocking chair. If the skater does not have complete balance they will rock forward & backward and will fall down frequently, which is frustrating for a beginner. Once the skater has attained the basic skating skills, a transfer to Hockey Skates takes only a few times on the ice to adjust. Your skater will be leaps and bounds ahead of the game if you place them in Figure Skates when they are just starting out.

Why not Double Runner Blades? The skating skills that are being taught in class are more difficult to learn if your child is wearing double runner blades. Double runner blades are not allowed for skating classes. Please refer to the section on Figure Skates above.

Rising Stars Figure Skating

(Classes for the more Advanced Skaters)

Location: Ice Arena

The Rising Stars Figure Skating Program will inspire in participants a sense of personal accomplishment and a passion for skating, while challenging them to reach their full potential. We offer a complete recreational skating program that ensures enjoyable and relaxed skating while providing a complete approach to mastering the skating skills. Our qualified & professional instructors teach classes for all ages. Skaters must master every skill before progressing to the next level. Each skater is different and will progress at their own pace. Some classes may need to be repeated to master all the skills. (MH)

Testing:

- Skaters must master every skill before progressing to the next level. However, each skater is different and progresses at his/her own pace. Some classes may need to be repeated to master all the skills.
- A pre-test will be given two weeks before the session ends, followed by a final test given on the last day of class. Parents will be notified at test time if their child is ready to move up to the next level.

Private Lessons

Private lessons are available to skaters needing extra help mastering a skill, or those wanting to learn more rapidly. Private lessons also prepare the skater to perform in shows, exhibitions and/or competitions. Private lessons are also available to all ages and abilities; and are especially recommended for Free Skate level skaters, in addition to classes. Skaters are responsible for Freestyle time and coaching fees, which vary. (MH)

Specialty Figure Skating Classes

The classes listed below are designed to develop edge quality, strength, flexibility, conditioning, and agility for competitive skaters through skill enhancing drills. Please see the complete schedule at the ice arena for registration information.

Off-Ice Jump Class

Prerequisite: Completion of Delta level and level placement is determined by the instructor. This class focuses on jump techniques, core strength and conditioning for the advanced figure skater. Participants need to bring athletic shoes and a jump rope. PDNA (MH)

Strength & Conditioning

Prerequisite: Completion of Delta level and level placement is determined by the instructor. This 60 minute off-ice class will incorporate cardio-conditioning, muscle strength and endurance exercises, along with core strengthening exercises. The class will help reduce over-use injuries and muscle imbalances that can occur with training. The Strength & Conditioning classes are sports-specific classes designed to challenge all ability levels in a safe and fun setting. PDNA (MH)

Edge Class

The "Ice Class" was developed by 1976 Olympic Figure Skating Champion, John Curry. Edge Class includes learning the use of deep edges and turns. This class is done with a ballet movement. Skaters in class learn to move in precision with each other while doing edge moves--making it all look effortless. PDNA (MH)

Power Class for skaters

Students will need both the desire to learn and the willingness to work hard. Power class focuses on the ability to generate maximum speed; improving endurance, power and stamina; developing upper and lower body strength; forward and backward skating technique; and edge use and control of turns to generate better flow and effortless skating.
